Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 17, 2009 has been entered.

Claims 7-9 and 14-18 are pending and examined.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-9 and 14 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Ye et al and in view of Zuckerman. New claims 15-18 have been added to this rejection. The limitations in claims 15-18 were previously found in claims 7 and 8, and therefore were addressed in the last office action.

Response to Arguments Concerning Claim Rejections – 35 USC § 103 (a)

Applicant's arguments filed June 17, 2009 have been fully considered but they are not persuasive.

The following grounds of traversal are presented:

Lipofectamine is widely used for delivery of naked DNA; however, it cannot deliver naked DNA into suspended cells, for example Tcells. The delivery method of claims 7-9 and 14-18 can deliver naked DNA into any cell type. Comparative FACS analysis demonstrates a clear and unexpected distinction between the prior art and the present invention.

Applicant's arguments have not been found persuasive for the following reasons.

Applicants are not claiming delivery into suspended cells. The claims are drawn to delivery into any host cell, eukaryotic or prokaryotic. While there is a distinction between Lipofectamine-pGFP-GBS cells and Mphi-Gal4-pGFP-GS cells, as shown by the FACS, analysis, the cells were T cells, to which the claims are not limited.

Allowable Subject Matter

No claims are allowed.
